Software Development Supported by UNICEF, Delhi

Design, Layout and Printing

Department of EMIS, NIEPA, New Delhi

Acknowledgements

For the last several years, NIEPA has been actively involved in strengthening the Educational Management Information System (EMIS) in the country to promote evidence based policy planning and management of school education. The District Report Cards: 2016-17 is based on data received from as many as 1.47 million primary and upper primary schools /sections spread over 701 districts across 36 States and UTs. The publication presents not only state-specific indicators but also brings in many new dimensions of elementary education into focus. It incorporates key indicators on key aspects of universalisation of elementary education in case of all States and UTs.

Collection and analysis of data of this magnitude cannot be completed without the active involvement and participation of the EMIS professionals at the national and sub-national levels. I am extremely thankful to all State Project Directors, the state level EMIS Coordinators and district level programmers and data entry operators for timely supply of data.

I take this opportunity to thank the UNICEF India Country Office, New Delhi for consistently supporting EMIS activities ever since the inception of U-DISE. I express my sincere gratitude to the Hon'ble Secretary, Additional Secretary, Joint Secretaries and Directors of the Department of School Education & Literacy, MHRD, Government of India for their support and guidance in the implementation of U-DISE.

I am grateful to Prof. N.V. Varghese, Vice-Chancellor, NIEPA for his encouragement, support and guidance in managing U-DISE at NIEPA. I take this opportunity to thank NIEPA faculty for their support.

I am thankful to Mohd. Jameel Ali Chishti, Project Junior Consultant (U-DISE Project), Ms. Aparna Mookerjee, Ms. Shakun Sethi and other members of the U-DISE team at NIEPA for computing the indicators presented in the publication.

I am also thankful to Mr. Arun Joshi, Consultant (Publications, U-DISE Project) for design & layout of the publication.

I hope that this publication will be of immense value to policy-makers, educational planners, and researchers. We would appreciate comments and suggestions for improvement of the publication.

K. Biswal
In-Charge, U-DISE
at NIEPA

Disclaimer

Raw data presented in the document or used for calculating indicators are essentially based on data provided by the States and UTs through annual data collection (as on 30th September 2016) under U-DISE. NIEPA is committed to provide professional and software support to all States and UTs as well as for dissemination and analysis of data as it is provided by the individual States and UTs.

In no way, NIEPA is involved in data collection as such and therefore the accuracy and truthfulness of the data rest with the States/UTs. The State Project Directors have certified that data is free from errors and inconsistencies and hence may be merged into the national database maintained at NIEPA, New Delhi.

One Million+ School Report Cards

(www.schoolreportcards.in)

Winner of Manthan Award South Asia 2010
&
e-Governance and eINDIA 2010 National Awards &
EMPI Indian Express Indian Innovation Award, 2012

The National Institute of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). The project covers both primary and upper primary schools/sections of all the districts of the country. What is more remarkable about DISE is that it has drastically reduced the time-lag in availability of educational statistics which is now down from 7-8 years to less than a year at the national and only a few months at the district and state levels. DISE is supported by the Ministry of Human Resource Development and UNICEF.

The National Institute has successfully developed School Report Cards of more than 1.47 million schools imparting elementary education and about 260 thousand secondary and higher secondary schools. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the click of a mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the country.
