Design, Layout and Printing

Department of EMIS, NUEPA, New Delhi

Acknowledgements

For the last several years, NUEPA has been actively involved in strengthening the Educational Management Information System (EMIS) in the country. The District Report Cards: Elementary Education in India: Progress towards UEE is based on the data received from all the States & UTs of the country for the year 2015-16. The publication presents not only state-specific indicators but also brings in many new dimensions of elementary education into focus. It incorporates key indicators on all aspects of universalisation of elementary education in case of all the States & UTs of the country. The District Report Cards: 2015-16 is based on the data received from as many as 1.45 million elementary schools /sections spread over 680 districts across 36 States & UTs.

The study of this magnitude cannot be completed without the active involvement and participation of the EMIS professionals at the national and sub-national levels. I am extremely thankful to all the State Project Directors, the state level EMIS coordinators and district level programmers and data entry operators for timely supply of data.

I take this opportunity to thank UNICEF, Delhi for consistently supporting EMIS activities ever since the inception of DISE and Secretary, Additional Secretary, Joint Secretary and Directors, Department of School Education & Literacy, Government of India, who played a crucial role in facilitating the implementation of U-DISE in various states.

I am thankful to Prof. Jandhyala B. G. Tilak, Vice-Chancellor (I/C), NUEPA, for encouragement and guidance. I take this opportunity and thank NUEPA faculty for their support.

The contribution of Shri Naveen Bhatia, System Analyst, NUEPA in database management, is gratefully acknowledged. I am thankful to Mr. Jameel Ali Chishti, Project Junior Consultant (DISE Project), Ms Aparna Mookerjee, Ms Shakun Sethi, Ms Aseela M, and other members of the DISE team at NUEPA for computing indicators that have been presented in the document.

I am also thankful to Mr Arun Joshi, Consultant (Publications, DISE Project) for timely bringing out the publication.

I hope that this publication will be of value to education planners, policy formulators and researchers. Suggestions for improvement are most welcome.

Arun C. Mehta

Report Cards : An Overview

1. Introduction

Ever since its inception, the *Sarva Shiksha Abhiyan* (SSA) has emphasised decentralised planning of education with a focus on district planning. It envisaged achieving goal of universal elementary education by 2010. All the States and Union Territories of the country are covered under SSA and RMSA. In order to operationalise this premise into reality, considerable amount of educational and allied data is required for each district. It was in this context that the District Information System for Education (DISE) was designed to provide district and sub-district level school data for planning, monitoring and review of various project interventions. During 2012-13, the scope of DISE was further extended to cover Secondory & Higher Secondary schools: since then it is known as Unified-DISE (U-DISE). The U-DISE data received from schools are computerised at the block/district level and disseminated up to the school level in various ways. The data capture format; definitions and concepts used for data collection are available at *www.dise.in* which is being followed uniformly across the states. The School Report Cards are available at *www.schoolreportcards.in.*

2. District Report Cards

Since 1999, efforts are being made to share the district level data with the educational planners, administrators and the data users in the form of District Report Cards. In addition to print material, a variety of dissemination strategies, including web publishing, were adopted to improve availability of district level data to the data users. From the year 2001-02, the scope of DISE was extended to cover new data elements as well as to expand the scope to the whole of the elementary education sector. The present volumes present the District Report Cards (Volume I & II); 2015-16 and contain a comprehensive district-specific database on elementary education in India. The District Report Cards incorporate information on the following important areas of elementary education:

a) Basic data on population, literacy, sex ratio, number of blocks, villages, clusters and schools from which data is reported is presented for all districts except those created after 2011 Census. In bifurcated districts, it is not possible to project child population in the absence of which a few key indicators are not presented for such districts.

b) Key data on elementary education in terms of number of schools, enrolment, and teachers classified by school-category and school management (Government, Private & Unrecognised). Details of schools and enrolment in rural areas are also made available category-wise and management-wise.

c) Grade-wise enrolment at primary and upper primary levels of education in each district.

d) Classrooms categorized into good condition, requiring minor and major repairs by school category.

e) Distribution of regular and contractual-teachers by educational and professional qualifications and by school category and teachers by age.

f) Sex-wise enrolment of children with disabilities in primary and upper primary classes along with CWSN enrolment by nature of disability.

g) Gender and caste distribution of regular and contractual-teachers and proportion of teachers received in-service teacher training by school category.

h) Enrolment by mediums of instruction and by school category.

i) Number of students benefited by various incentive schemes at primary and upper primary levels.

j) Grade-specific promotion, repetition and drop-out rates at primary and upper primary levels of education.

k) Performance indicators in terms of school category, enrolment distribution: Total, Scheduled Castes, Scheduled Tribes, Other Backward Classes (OBC) and Muslim, percentage of girl's enrolment, Ratio of girls' to boys' enrolment at Primary level, number of classrooms, single-teacher schools, schools with pre-primary classes and enrolment in pre-primary classes etc.

l) Quality indicators according to category of schools, pupil-teacher ratio, average number of teachers, availability of female teachers, school buildings, students-classroom ratio, boys' toilet, girls' toilet etc.

m) Number of schools received and utilized school development and teaching learning material grant by school category.

3. Methodology and Sources of Data

The Report Cards are based on the school level data provided by the State Project/Mission Directors to the Department of School Education and Literacy of the MHRD. The data are first cross-checked and validated at the district and then at the state level. After the state is satisfied with the quality and reporting of the data, it is submitted to NUEPA for analysis and dissemination. At the national level thorough scrutiny of state-specific data is undertaken and limitations, if any, are reported to the concerned states, district-wise.

In addition to the data generated through U-DISE, the District Report Cards also present selected data from the 2011 Census. The definitions and concepts followed in the preparation of District Report Cards are the same as used in the U-DISE data capture formats.

Over a period of time, no-responses have considerably gone down. Despite the best efforts, a few schools have not responded to all the variables, like management, year of establishment, rural/urban classification, school category, building status, academic and professional qualifications of teachers, caste and sex code for teachers, enrolment by mediums of instruction etc. Wherever possible, efforts have been made to analyse the data by excluding the no-response values. In some tables, no-responses are also shown separately. However, in some cases, no-responses are explicit from the tables and hence the totals may not match across various tables due to different number of no-responses. In cross tabulation analysis, the no-responses are excluded.

3.1 Indicators and their formulation

The report cards contain absolute data on selected variables and also present trends of indicators derived from the school and the district level data. For the purpose of presentation and ease of understanding and interpretation, certain variables are regrouped. The following paragraphs provide information on the variables where regrouping has been done for the purpose of presentation in the Report Cards:

a) *School management:* The District Report Cards present the data on management in terms of Government, Private and unrecognised category. The Government category includes all schools under the management of the Government (Central/State), Tribal and Social Welfare Departments, Local Bodies, and *Kendriya Vidyalyas*, Army Schools, Navodaya Vidyalayas, Sainik Schools, Tibetan Schools, *Navy Schools, Project Schools etc.* The Private category includes schools classified as Private Aided and Private Unaided. Unrecognised category includes Unrecognised Schools and Recognised and Unrecognised Madaras.

b) *Teachers in position:* The distribution of teachers in terms of educational qualifications has been presented separately for regular teachers and contractual-teachers. Teachers include, Head Teachers, Acting Head Teachers, Instructor positioned as per RTE, Principal, Vice Principal and Lecturers. The analysis of teachers' data for in-service training is presented for all teachers including contractual-teachers.

c) *Mediums of instruction:* The District Report Cards present the number of children studying through various mediums of instruction by category of schools. Data for Five major mediums of instruction are presented in the Report Cards. *However, under reporting of enrolment by mediums of instruction is observed in a few districts. Hence, the same may not present the true picture of enrolment by mediums of instruction and be treated as incomplete and is applicable to schools those who have reported information and not to all the schools in the district.*

d) *Schools, villages, blocks and clusters:* The number of blocks, villages and schools is based on the initialized entities in the U-DISE software. The list of blocks, villages and schools is created at the time of DISE implementation and is updated annually. The number of clusters refers to the mapped entities with the blocks.

3.2 Formulae Used

The main indicators presented in the Report Cards have been derived by using the following illustrative formulae. The derivations are given for schools in primary category only. The same method is applied for other categories and classificatory groups.

1. % Single-classroom schools $= \dfrac{\text{Primary schools having single classroom}}{\text{Total primary schools}} \times 100$

2. % Single-teacher schools $= \dfrac{\text{Primary schools with single teacher in position}}{\text{Total primary schools}} \times 100$

3. % Schools with pre-primary sections $= \dfrac{\text{Primary schools/sections having pre-primary sections}}{\text{Total primary schools/sections}} \times 100$

4. % Schools with girl's toilet $= \dfrac{\text{Primary girl's \& co-educational schools having girl's toilet}}{\text{Total primary girl's \& co-educational schools}} \times 100$

5. % Enrolment in government schools $= \dfrac{\text{Enrolment in primary schools having Education Department, Local Body, Tribal Welfare Department, Central Govt. \& others as school management}}{\text{Total enrolment in primary schools}} \times 100$

6. % Enrolment in single-teacher schools $= \dfrac{\text{Enrolment in primary schools having single teacher}}{\text{Enrolment in total number of schools having primary category}} \times 100$

7. % SC enrolment $= \dfrac{\text{Primary schools having teacher} \geq 2 \text{ but no female teacher Enrolment of SC in primary classes}}{\text{Total enrolment in primary classes}} \times 100$

8. % SC girls to SC enrolment $= \dfrac{\text{Enrolment of SC girls in primary classes}}{\text{SC enrolment in primary classes}} \times 100$

9. % ST enrolment $= \dfrac{\text{Enrolment of ST in primary classes}}{\text{Total enrolment in primary classes}} \times 100$

10. % ST girls to ST enrolment $= \dfrac{\text{Enrolment of ST girls in primary classes}}{\text{ST enrolment in primary classes}} \times 100$

11. % Muslim enrolment $= \dfrac{\text{Enrolment of Muslim minority in primary classes}}{\text{Total enrolment in primary classes}} \times 100$

12. % Muslim girls to Muslim enrolment $= \dfrac{\text{Enrolment of Muslim girls in primary classes}}{\text{Muslim enrolment in primary classes}} \times 100$

13. Pupil -Teacher Ratio $= \dfrac{\text{Total enrolment in schools of primary category}}{\text{Total teachers in schools of primary category}}$

(Contractual-teachers have been included while calculating PTR)

14. Student-Classroom Ratio (SCR) $= \dfrac{\text{Total enrolment in primary schools}}{\text{Total classrooms in primary schools}}$

15. % Schools with ≤ 50 students $= \dfrac{\text{Number of primary schools having enrolment} \leq 50}{\text{Total primary schools}} \times 100$

16. % Female teachers $= \dfrac{\text{Total female teachers in primary schools}}{\text{Total teachers in primary schools}} \times 100$

(Contractual teachers have been included while calculating this indicator)

17. Flow Rates

(a) Promotion Rate

$$(P_g^t) = \frac{P_{g+1}^{t+1}}{E_g^t} \times 100$$

where

P_{g+1}^{t+1} = Number of students promoted to Grade `g+1' in year `t+1', and

E_g^t = Total number of students in Grade `g' in year `t'.

(b) Repetition Rate

$$(R_g^t) = \frac{R^{t+1}}{E_g^t} \times 100$$

where

R_g^{t+1} = Number of repeaters in Grade `g' in year `t+1'

(c) Dropout Rate

$$(D_g^t) = \frac{D_g^t}{E_g^t} \times 100$$

where

D_g^t = Number of student's dropping out from Grade `g' in year 't'

(d) Transition Rate (TR)

$$TR = \frac{E_{g+1}^{t+1}}{E_g^t} \times 100$$

where

E_{g+1}^{t+1} = New entrants into Grade VI in year 't+1' and

E_g^t = Enrolment in Grade V in year `t'

(e) Retention Rate (RR)

$$RR = \frac{\text{Enrolment in Grade V in year 't'} - \text{Repeaters in GradeV in year 't'}}{\text{Enrolment in Grade I in year t-4}} \times 100$$

18. Average promotion, repetition and dropout rates present average of these rates in primary classes and are calculated by using the standard methods.

19. Ratio of girl's Enrolment to Boy's Enrolment $= \dfrac{\text{Girl's enrolment in primary grades in year 't'}}{\text{Boy's enrolment in primary grades in year 't'}}$

20. Ratio of Primary to Upper Primary Schools/Sections $= \dfrac{\text{Total number of primary schools/sections in year 't'}}{\text{Total number of upper primary schools/sections in year 't'}}$

21. Gross Enrolment Ratio (GER) $= \dfrac{\text{Total enrolment in Grades I-V}}{\text{Population of age 6-11 years}} \times 100$

22. Net Enrolment Ratio (NER) $= \dfrac{\text{Enrolment, Grades I-V/6-11 age group}}{\text{Population of age 6-11 years}} \times 100$

23. In-service training, school development & TLM grants received and utilized etc. are presented for the previous academic year.

24. Average number of days teachers spent on non-teaching assignments is applicable to only those teachers who were assigned non-teaching assignments and not to all teachers.

4. Coverage: Some Facts

- Record date : 30th September 2015
- Grades covered : 1 to 8
- Total states : 36
- Total districts : 680 (including bifurcated districts)
- Total schools : 14,49,078
- Total students : 196.7 million
- Total teachers : 8.08 million (including contractual-teachers)
- Total contractual-teachers : 10,64,434
- Number of repeaters : 0.92 million
- Number of students with disabilities : 2.28 million

5. Limitations of the Data

Raw data presented in the document or used for calculating indicators are essentially based on data provided by the State Project Offices through annual data collection under SSA & RMSA (U-DISE) and the correctness of data reported is not checked by NUEPA. NUEPA is committed to provide professional and software support to all States and UTs as well as for dissemination and analysis of data. In no way, it is involved in data collection as such and therefore the accuracy and truthfulness of the data rest with the States/UTs. Further, the State Project Directors have certified that data is free from errors & inconsistencies and hence the same may be merged into the national database maintained at NUEPA, New Delhi.

Procedures for the data validation and verification of sample data capture formats at the district level have been prescribed, and the districts reported the steps taken by them to ensure quality and reliability of data collection. The U-DISE software also checks for internal inconsistencies in the data and generates reports for verification by the District Project Office. The State Project Office while transferring the data from the district to the state database ensures that the data received from the district is complete and free from any inconsistency. Most of the states have engaged an independent agency for sample checking of data. At the national level, data from the State Project Office is received to ensure compliance with various quality control measures. Despite these efforts, some inconsistencies and missing data are observed at the national level. In some cases data on key elements is found missing. In view of these problems, data presented in the Report Cards may not exactly match. In some cases, the discrepancies could not be resolved at the national level. For these reasons, data on such variables is not reported in a few districts.

Needless to mention that the percentages, rates and ratios presented in the report cards are based on the schools that have responded to a particular question and hence may not be applicable to the entire district. Thus, schools by management, their location in rural and urban areas, type of school, schools by category, enrolment (General, SC, ST, OBC, Muslim and by mediums of instruction), pupil-teacher ratio, student-classroom ratio, percentage of girls in primary and upper primary classes and other such indicators should therefore be viewed in the light of these limitations.

Over a period of time, the number of schools covered under U-DISE increased significantly. During 2015-16, data has been collected from more than 1.45 million elementary schools/sections, with a comprehensive profile of more than 8.08 million teachers, also being maintained by U-DISE. Despite best efforts, it is still possible that the field agencies might have not covered all the schools imparting formal education supposed to be covered under U-DISE which is more specifically true for schools under private or unrecognised managements. A few districts have collected data from these schools while others might not have covered all such schools. Despite significant increase in number of private

schools covered under U-DISE (334 thousand in 2015-16), and 37.6 thousand Unrecognised schools field level functionaries reported that data from a few private unaided schools couldn't be obtained for the one or the other reason. We are trying to reach all such schools and are hopeful that these efforts will be reflected in the following year.

It has also been observed that a few schools did not report age and grade matrix which is crucial in knowing the status of elementary education. GER and NER may not give correct portrayal of universalisation and the same may be considered as percentage of children of an age-group enrolled in schools that reported data under U-DISE. The remaining children may either be out-of-school or enrolled in unrecognized schools, Education Guarantee Schools (EGS), non-formal education centers and other learning centers not covered under U-DISE. Irrespective of the school structure, enrolment ratio at the Primary level is based on Grades I-V and of the Upper Primary level, Grades VI-VIII.

The state–specific single-age population projected by the Office of the Registrar General of India is used to obtain 6-11 and 11-14 year child population at the district level which is used to compute GER and NER. The districts may feel free to revise enrolment ratio in the light of more recent estimates of child population, if available through the household survey or any other source.

An attempt has been made to compute flow rates in case of all the States and UTs which is based on two years U-DISE data. While analysing the flow rates, it is noticed that in some cases the data is inconsistent. Indicators in case of such districts have not been reported. Districts are advised to run consistency module of the U-DISE software to identify and remove inconsistencies in the data. In addition, the CRC Coordinators have been made accountable to ensure complete coverage as well as also to ensure that data is consistent and there are no missing values in the filled-in formats of the schools falling under his/her jurisdiction.

6. Random Checking of Data

With an aim to further improve the quality and reliability of data, it has been made mandatory for all the States & UTs to get the U-DISE data sample checked by an independent agency from the year 2006-07 onwards, for which NUEPA suggested the sampling methodology and developed a special data capture format for post enumeration survey. It is heartening to note that many states initiated random sample checking of data in its very first year, most of which were conducted by the monitoring institutions (mostly ICSSR funded institutions and education department in the universities) identified for the states. All these efforts would not only help in further improving the quality of data but would also help in ensuring complete coverage.

U-DISE 2015-16: Coverage

Sl. No.	State & UT	School Structure		Number of Districts Reported Data*				
		Primary	Upper Primary	2011 Census	DISE			
					2005-06	2013-14	2014-15	2015-16

DISE Publications: A Few Comments

- *I sincerely thank for having sent us the copy of your latest publication which is very useful for our faculty members as reference material. Mr. A. Sukumar, North East Regional Institute of Education, Meghalaya.*

- *Thank you very much for sending copy of your publication. This has been very carefully and excellently prepared. Dr. M. D. Tiwari, Director, Indian Institute of Information Technology, Allahabad.*

- *This publication certainly is useful for planning of school education in the country. I appreciate the efforts of NUEPA for their hard and tireless effort for bringing out this publication. Dr. S.S. Jena, Chairman, National Institute of Open Schooling, NOIDA, U.P.*

- *The choice and usefulness of the content is very good quality and presentation is excellent. No doubt it is useful. Principal, M.M. Shah College of Education, Wadhwan City.*

- *The publications are very useful in knowing the status of Gujarat with other states. It would be useful for research also. Mr. M.N. Bhad, Director, SCERT, Gujarat.*

- *Excellent compilation of the data and very useful in planning activities pertaining to elementary education. Dr. M. Shanmugam, Regional Director, IGNOU RC, Madurai.*

- *The quality of printing and arrangement of data displayed are very good and are very easy to use and understand. Mr. Yaqoob Memon, Director, Al-Hira Public School, Indore.*

- *This is a most impressive publication and is very precious for students and researchers in this field. Mr. Jacques Hallak, UNESCO, Paris, France.*

- *I am amazed at the analysis of school infrastructure, enrolment, teacher statistics etc. The Educational Development Index appears to be a welcome tool of comparing the performance of States. Shri. Prabhat Kumar, Former Cabinet Secretary, New Delhi.*

- *The document will surely help us to understand the latest status of education in India in general and Gujrat in particular. Dr. Pushpa Wadhwani, Head, AzimPremji Foundation, Gujarat.*

- *I found the publication well prepared, quite useful and informative, Dr. B.N. Yugandhar, Member, Planning Commission of India, Yojana Bhawan, Parliament Street, New Delhi.*

- *Just received the two volumes of elementary education in India. Should I say I am privileged? I have just leafed through the pages and have had a sensation. What a tremendous job done! Mr. Soumen Hom, Kolkata.*

- *We will add the publication to our well-used education section and are sure that our readers will find them useful and informative. Mr. Emma Mathieson, Librarian, Oxford University, Oxford (U.K).*

- *The publication is very useful to our library users and researchers. Mr. Laxmi Prasad Sharma, CRC Co-ordinator, Nandugaon, South Sikkim.*

- *Publications are very useful for research work for faculty members and research scholars. Dr.*

Phanindra Goyari, Faculty Member, University of Hyderabad, Hyderabad.

- *DISE publications are so good for working the uplifting of education in our day to day work. Mr. R. Kapzauva, Deputy Director, School Education, Aizawal.*

- *Publication and information are very useful. Dr. D.K. Mathela, Joint Director of Education, Nainital, Uttarakhand.*

- *Thank you for sending me very useful publications, Shri J. Veeraraghavan, Director, Bhartiya Vidya Bhavan, New Delhi.*

- *I have placed the publication in our library for wider consultation by our scholars, Professor C.H. Hanumantha Rao, Chairman, Centre for Economic and Social Studies, Hyderabad.*

- *NUEPA's success in operationalising the nationally acclaimed DISE has been one such landmark, revolutionizing the role of education planners, who can now address local developmental needs from an informed perspective, armed with statistical and situational data, Mr. Samphe Lhalungpa, Ex-Chief, Education Section, UNICEF, India Country Office, New Delhi.*

- *The publication is useful for our institution. It will definitely enhance our knowledge. Mr. C.G. Joshi, Principal, Rajkot Inter College, Almora.*

- *Very good and useful publication, especially for research scholars. Dr. Pratibha Pande, Associate Professor, S.C. College, Ballia.*

- *My joy knows no bound in receiving 3 latest publications on Elementary Education in India published by the National University of Education Planning and Administration. NUEPA has been rendering yeoman's service to the cause of education in general and school education in particular for a long period of time. Shri Kanti Biswas, Former Education Minister, West Bengal.*

One Million+ School Report Cards

(www.schoolreportcards.in)

Winner of Manthan Award South Asia 2010
&
e-Governance and eINDIA 2010 National Awards &
EMPI Indian Express Indian Innovation Award, 2012

The National University of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). The project covers both primary and upper primary schools/sections of all the districts of the country. What is more remarkable about DISE is that it has drastically reduced the time-lag in availability of educational statistics which is now down from 7-8 years to less than a year at the national and only a few months at the district and state levels. DISE is supported by the Ministry of Human Resource Development and UNICEF.

The National University has successfully developed School Report Cards of more than 1.43 million schools imparting elementary education and about 229 thousand secondary and higher secondary schools. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the click of a mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the country.
