For the last several years, NIEPA has been actively involved in strengthening the Educational Management Information System (EMIS) in the country to promote evidence based policy planning and management of school education. The publication entitled Analytical Tables: Elementary Education in India: Progress towards UEE: 2016-17 is based on data received from as many as 1.47 million primary and upper primary schools/ sections spread over 701 districts across 36 States and UTs. The publication presents not only state-specific indicators but also brings in many new dimensions of elementary education into focus. It incorporates important indicators on key aspects of universalisation of elementary education in States and UTs.

The collection and analysis of data of this magnitude could not have been possible without the active involvement and participation of EMIS professionals at the national and sub-national levels. I am extremely thankful to all State Project Directors, State Level EMIS Coordinators and district level programmers and data entry operators for timely supply of data.

I take this opportunity to thank the UNICEF India Country Office, New Delhi for consistently supporting the EMIS activities ever since the inception of the U-DISE. I express my sincere gratitude to Hon'ble Secretary, Additional Secretary, Joint Secretaries and Directors of the Department of School Education & Literacy, MHRD, Government of India for their support and guidance in the implementation of the U-DISE.

I am grateful to Prof. N.V. Varghese, Vice-Chancellor, NIEPA for his encouragement, support and guidance in managing the U-DISE at NIEPA. I take this opportunity to thank NIEPA faculty for their support.

I am thankful to Mr. Jay Prakash, Project Junior Consultant, Mr. Deepesh Kumar Singh, Data Entry Operator (U-DISE Project) and other members of the U-DISE team at NIEPA for computing the indicators presented in the publication.

I am also thankful to Mr. Arun Joshi, Consultant (Publications), U-DISE Project for design & layout of the publication.

I hope that this publication will be of immense value to policy-makers, educational planners, administrators and researchers. We would appreciate comments and suggestions for improvement of the publication.

K. Biswal
In-Charge, U-DISE at NIEPA

New Delhi

Disclaimer

Data and indicators presented in the document are based on the U-DISE 2016-17 data provided by States and UTs. The U-DISE data for 2016-17 were collected by States/UTs through an annual census of schools and teachers taking 30th September 2016 as the reference date.

In no way, NIEPA was involved in the collection of the U-DISE data, and therefore, the accuracy and truthfulness of the data rest with States/UTs. While submitting the U-DISE data to NIEPA, State Project Directors had certified that data were free from errors and inconsistencies, and hence, could be merged into the national database maintained at NIEPA. NIEPA, therefore, assumes no responsibility or liability for any errors or omissions in data and indicators reported in the document.

One Million+ School Report Cards
(www.schoolreportcards.in)

Winner of Manthan Award South Asia 2010 &
e-Governance and eINDIA 2010 National Awards &
EMPI-Indian Express Indian Innovation Award, 2012

The National Institute of Educational Planning and Administration has created a comprehensive database on school education in India under one of its most prestigious projects, known as, Unified District Information System for Education (U-DISE). What is more remarkable about U-DISE is that it has drastically reduced the time-lag in availability of educational statistics which is now down from 7-8 years to less than a year at the national and only a few months at the district and state levels.

NIEPA has successfully developed School Report Cards of more than 1.47 million schools imparting elementary education and about 260 thousand Secondary and Higher Secondary schools. In addition to quantitative data, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the click of a mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are published to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons among schools. We hope that these reports are used in constructive conversations, leading to improved educational opportunities for all children in the country.
